

ENERGY POLICY STATEMENT

The AiP Group of Companies (the Company) has committed to operate a formal energy management system to the requirements of the International Standard ISO 50001:2011 in order to achieve energy performance improvement and we commit to continual improvement in this discipline.

The scope of the company's EnMS is all of its energy consumption encompassing our head office, company transport and the operational catering activities of our staff on customer sites.

To deliver this, the company will provide the necessary resources and provide measured information to achieve set objectives and targets.

We will meet legal requirements applicable to our energy management and any other related requirements to which the company subscribes.

Our energy objectives and targets will be formally set and reviewed.

Our energy management system will support the purchase of energy efficient products and services, plus the commissioning of any design related to our energy performance improvement.

The energy management system will be documented and communicated to all levels of the Company's staff.

This policy will be formally reviewed annually and updated as required.
